We have audited the accompanying balance sheet of Garrett Nagle & Company, Inc. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Garrett Nagle & Company, Inc. as of December 31, 2017, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The Supplemental Schedule of Computation of Net Capital is the responsibility of the Company's management. Our audit procedures included determining whether the Supplemental Schedule of Computation of Net Capital reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the Supplemental Schedule of Computation of Net Capital. In forming our opinion on the Supplemental Schedule of Computation of Net Capital, we evaluated whether the Supplemental Schedule of Computation of Net Capital, including its form and content, is presented in conformity with 17 C.F.R. §240.17a-5. In our opinion, the Supplemental Schedule of Computation of Net Capital is fairly stated, in all material respects, in relation to the financial statements as a whole.

GARRETT NAGLE & COMPANY, INC.
NOTES TO FINANCIAL STATEMENTS

A. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

1. Organization - Garrett Nagle & Company, Inc. (the Company) is an investment advisor and broker-dealer in Woburn, Massachusetts and is registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company's primary sources of revenue are generated through investment advisory services provided for its customers and commission earned on trades consummated on behalf of those customers.
2. Operations - The Company is engaged as a broker and dealer in securities and other financial products for a diverse group of investors. The Company introduces these transactions for clearance and execution services primarily to National Financial Services, LLC, a New York Stock Exchange member firm, on a fully disclosed basis. The Company's business and results of operations are, to a large extent, dependent on investment trends of the United States economy.
3. The agreement between the Company and National Financial Services, LLC provides that the Company is obligated to assume any exposure related to nonperformance by its customers. The Company monitors its customer activity by reviewing information it receives from National Financial Services, LLC on a daily basis, requiring customers to deposit additional collateral or reduce positions as appropriate, and reserving for doubtful accounts when necessary.
4. Cash and Cash Equivalents - For purposes of the statement of cash flows, the Company considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.
5. Restricted Cash - The company maintains a certificate of deposit as collateral for an irrevocable letter of credit required by the Woburn office lease.
6. Securities Transactions - The Company accounts for securities transactions and the related commission income and expense on a trade date basis.
7. Marketable Securities - The Company accounts for marketable securities under the provisions of FASB ASC 320-10 "Accounting for Certain Investments in Debt and Equity Securities". The provision establishes standards for equity securities that have readily determinable values and for all debt securities.

Under FASB ASC 320-10-25-1, unrealized gains and losses on securities categorized as Available for Sale are based on the difference between book value and fair value for each security. These unrealized gains and losses are reported as a separate component of stockholder's equity.

All investment securities held during the year ended December 31, 2017 have been classified as available for sale and are reflected on the balance sheet at fair market value, with unrealized gains and losses reported as a separate component of stockholder's equity.

A. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

8. Revenue Recognition - Investment advisory fees are billed and collected annually in advance, and recognized ratably on a monthly basis as earned during the year. Fees collected in advance and not yet earned are recorded as deferred investment advisory fees.

Commissions revenue is received monthly and recorded in the period earned. Securities are evaluated on at least a quarterly basis and more frequently when economic or market conditions warrant such an evaluation to determine whether a decline in their value is other than temporary. Management utilizes criteria such as the magnitude and duration of the decline and the intent and ability of the Company to retain its investment in the issues for a period of time sufficient to allow for an anticipated recovery in fair value, in addition to the reasons underlying the decline, to determine whether the loss in value is other than temporary. The term "other than temporary" is not intended to indicate that the decline is permanent, but indicates that the prospects for a near-term recovery of value is not necessarily favorable, or that there is a lack of evidence to support a realizable value equal to or greater than carrying value of the investment. Once a decline in value is determined to be other than temporary, the value of the security is reduced and a corresponding charge to earnings is recognized.

9. Depreciation - Depreciation of office equipment and fixtures is provided using the straight-line methods over five to seven years. Costs incurred in connection with improvements to the Company's leased premises have been capitalized and are being amortized over the term of the lease using the straight-line method.
10. Income Taxes - The Company's sole shareholder has elected, under the provisions of the Internal Revenue Code, to be treated as an S Corporation. As a result, income and losses of the Company are passed through to its stockholder for income tax purposes. Accordingly, no provision has been made for income taxes. The Company is subject to corporate state tax on net taxable income if the Company's annual revenue exceeds certain dollar values. The Company's annual revenue did not exceed these thresholds in 2017, however, it is subject to an excise tax on the greater of its tangible property or net worth.
11. Uncertainty In Income and Other Taxes - The Company adopted the new standards for *Accounting for Uncertainty in Income Taxes* (income, sales, use and payroll), which required the Company to report any uncertain tax positions and to adjust its financial statements for the impact thereof. As of December 31, 2017, the Company determined that it had no tax positions that did not meet the "more likely than not" threshold of being sustained by the applicable tax authority. The Company files tax and information returns in the United States Federal and Massachusetts jurisdictions. These returns are generally subject to examination by tax authorities for the last three years.

GARRETT NAGLE & COMPANY, INC.
NOTES TO FINANCIAL STATEMENTS

A. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

12. The Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The estimated fair value of financial instruments is determined by reference to various market data and valuation techniques, as appropriate. These techniques require the Company to develop assumptions on such items as discount rates and future cash flows. Accordingly, such fair value estimates may not necessarily be indicative of the amounts the Company would realize upon a current market exchange. Actual results could differ from those estimates.
13. Fair Value of Financial Instruments - The amounts reported on the balance sheet for cash, accounts receivable, accounts payable and accrued expenses approximate fair value because of the short-term nature of these instruments. The amounts reported for marketable securities owned are the fair value of those instruments.
14. Indemnifications - In the normal course of its business, the Company indemnifies and guarantees certain service providers, such as clearing and custody agents, trustees and administrators, against specified potential losses in connection with their acting as an agent of, or providing services to, the Company. The Company also indemnifies some clients against potential losses incurred in the event specified third-party service providers, including subcustodians and third-party brokers, improperly execute transactions. The maximum amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.
15. Concentration of Credit Risk - The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

B. MARKETABLE SECURITIES:

Marketable securities classified as available-for sale consisted of the following:

	Cost	Unrealized Gain	Fair Market Value
Mutual Funds	\$ 10,020	\$ 1,600	\$ 11,620
Equities	320,718	1,714,166	2,034,884
	<u>\$ 330,738</u>	<u>\$ 1,715,766</u>	<u>\$ 2,046,504</u>

For the year ended December 31, 2017, the net realized gain of \$50,939 was transferred from accumulated other comprehensive income and recognized in income.

C. PROPERTY AND EQUIPMENT:

Property and Equipment consists of the following at December 31, 2017:

Furniture and Fixtures	\$ 37,150
Leasehold Improvements	5,695
Motor Vehicles	97,215
Office Equipment	<u>65,890</u>
	205,950
Less: Accumulated Depreciation	<u>(205,950)</u>
	<u>\$ -</u>

D. FAIR VALUE MEASUREMENT:

FASB ASC 820-10 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to measurements involving significant unobservable inputs (Level 3 inputs).

The following table sets forth by level, within the fair value hierarchy, the Company's assets at fair value:

<u>December 31, 2017</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual Funds	\$ 11,620	\$ -	\$ -	\$ 11,620
Equities	<u>2,034,884</u>			<u>2,034,884</u>
	<u>\$ 2,046,504</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,046,504</u>

The three levels of the fair value framework are as follows:

- Level 1 - Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 - Inputs other than quoted prices in active markets that are observable for the asset either directly or indirectly, including inputs in markets that are not considered to be active.
- Level 3 - Inputs that are unobservable

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017.

Fair market value is determined to be the last reported sales price of the marketable securities as listed on the applicable public exchange at closing on the last business day of the period.

Corporate bonds and preferred stocks, which generally are traded in the over-the-counter market, are valued at the average of the last reported bid and asked

D. FAIR VALUE MEASUREMENT: (Continued)

prices. For certain corporate bonds and preferred stocks that do not have an established fair value, the fair values are based on yields currently available on comparable securities of issuers with similar credit ratings.

A qualified asset or liability's level within the framework is based upon the lowest level of any input that is significant to the fair value measurement. The Company's qualifying assets or liabilities are recorded at fair value using Level 1 inputs. FASB ASC 320-10-25-1 requires trading securities to be carried at market value. At December 31, 2017, marketable securities and corporate bonds had a market value of \$2,046,504 and had a cost basis of \$330,738.

E. NET CAPITAL REQUIREMENTS:

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined, of \$100,000 and the ratio of aggregate indebtedness to net capital must be less than 15 to 1, as defined under such provisions. Net capital and the related net capital ratio may fluctuate on a daily basis. At December 31, 2017, the Company had a net capital of \$2,193,406 exceeding the minimum net capital requirement of \$100,000. At December 31, 2017, the Company had a ratio of aggregate indebtedness to net capital of .20 to 1, lower than the maximum ratio allowed of aggregate indebtedness to net capital of 15 to 1.

F. LEASE COMMITMENTS:

The Company leases office space in Woburn, Massachusetts under a non-cancellable operating lease, which as amended, expires February 28, 2019. The lease requires monthly rental payments of \$9,335.

Future minimum lease payments under the lease described above are as follows:

2018	\$ 112,020
2019	18,670
	<u>\$ 130,690</u>

Total rent expense, including operating expenses, for the years ended December 31, 2017 was \$111,492

G. SUBSEQUENT EVENTS:

Management has evaluated events occurring after the balance sheet date through February 20, 2018 the date in which the financial statements were available to be issued. No material events have been identified which would require disclosure under FASB ASC 855-10-50-1.
